SUMMARY

Public Health graduate with hands-on experience turning healthcare data into decisions that informed national policy. Comfortable working across research, client communication and cross-functional coordination, with a track record of translating complex information clearly for both technical and non-technical audiences. Power BI certified, with practical experience using AI-assisted research tools and growing foundations in SQL and Python. Driven to bring health science and data together for real health impact.

EDUCATION

Bachelor of Science in Healthcare and Disease Prevention (Public Health), University of Debrecen

2019 - 2023 | Stipendium Hungaricum Scholar

EXPERIENCE

Research Assistant, Institut Kesihatan Negara (NIH)

Contract | February 2024 - November 2024

- Performed data cleaning and analysis on survey and discussion data from 40+ healthcare professionals, translating findings into charts and visual summaries that helped identify Malaysia's top 10 preventable hospitalisations and informed national healthcare policy discussions.
- Synthesized findings from 20+ academic sources using AI-assisted research tools, building an evidence matrix that streamlined the study's methodology.
- Co-authored a manuscript published in The BMJ, translating research and expert discussion into actionable evidence for Malaysia's healthcare system priorities.

President cum Faculty Representative, International Student Union, University of Debrecen

2022 – 2023

- Served as the first point of contact for international students within the Faculty of Health Sciences, triaging academic and welfare concerns and escalating unresolved cases to faculty administration.
- Represented the faculty's international student body in cross-union coordination for university-wide events, attending planning meetings and ensuring the team delivered on assigned tasks for successful event execution.
- Managed the faculty's communication channels, ensuring timely announcements and consistent awareness of academic updates across the international student body.

ADDITIONAL EXPERIENCE

Authorised Consultant & Business Partner, Public Gold Group

Self-Employed | May 2025 - March 2026

- Translated complex financial information clearly to a small client base, drawing on extensive business and leadership training.
- Built and managed social media content, tracking engagement to shape educational strategy for a client audience.
- Applied Public Gold's proprietary systems to manage procedures and client interactions accurately.
